

## Day 14 ~ Sunday 3 August, Last day at sea.

This is our final day at sea. Once more the sun shines strongly into our stateroom. There must be more than a dozen professional photographers on board. It is big business. Our photographs have not been printed, so we flick through the folders on their computer and order them.

Ten or so computers are available for passengers. We successfully print boarding passes but the session costs \$25.

The Princess is sailing between mainland Canada to our left and Vancouver Island to our right. Our bags have to be packed and outside by 9:00pm.

Up the coast to Canada.
